LEARNING MADE EASY

E-library | Online class | CBT Software | All exam CBT

Fmaezyl Digital Solution - 080399647190

WORLD CLASS Learning Solution

Digital Learning

This offer gives your school an e-library, CBT functionality for both termly exams and Jamb practice within your school premises by engaging the exiting computer system.

Note: No internet connectivity is required we are to build and deploy the software into the computer system in the school.

E-CLASS

This is a web app that simulates all class activities to a web base. ie teaching, assignment and test. Just like a portal, each student has dashboard to attend live class, write, assignment, interact and take test from home. The test features objective, theory and pictorial questions which is auto marked and generate score at instance, there is teachers' dashboard too.

This is a best suit for holiday class, take home assignment

FACILITY MANAGEMENT

A well maintenance routine oversees and fix unseen issue that may cause sudden breakdown in the school tech facilities which includes

IT UNIT

- Computer System
- Network facilities
- Biometric Access
- Projectors
- Smart board
- CCTV Camera
- Website

Power Unit

- Electric Power generator
- Solar System
- Inverter and UPS
- Energy consumption management to reduce bill

GROWTH

Advert | Website | Publicity

The overall growth of the school is one of our priority. we ensure rapid growth of the school by crafting out events, exhibitions that will boost the school through our tech hub program. Also create a media unit that will be in charge of -

- Designing handbills and banner for advert,
- Take, record and edit event / activities videos and pictures.
- Manage and upload social media handles and website with content to boost the audience

Tech Hub

Discovering and grooming talents

Fmaezy| Digital Solution - 080399647190

TECH HUB

Tech Hub is a hands-on practical program designed to enhance and expose the student perspective to technology & management through complete participation in training and executing projects to produce a useable product after training for exhibition.

This is a competitive environment where talents are discovered and groomed. Students are subdivided into different units, trained, and produce a lucrative item either by individual or group, which the best will be recognised, awarded, and endorsed. The projects, exhibition, and the event are another side attraction for the school as it is going to be advertised.

PROGRAM
